- USE YOUR PDM MODEL**  
5  
Upload your data  
Access your data  
When Model Deployment complete please login to:
  - iPhone PDM App
  - WebPDM Dashboard
  - Windows PDM application

These are the steps to take to create and deploy your PDM Model onto your chosen clouddrive

# Step 1 – Create a model

The screenshot shows the 'CREATE PDM DATA MODEL' page in the Salmon Technologies application. The top navigation bar includes 'Dashboard', 'My PDM Model(s)', 'Create a PDM Model' (selected), and 'My Account Information'. The breadcrumb trail shows 'PDM' > 'Create PDM Data Model'. The main content area lists several model options, each with a text label and a corresponding icon. The 'Family Parents Children & Dependents' option is highlighted with a red rectangular border. Below it is the 'Couple – Male Female' option. The 'Single Adult Male' and 'Single Adult Female' options are above it. An 'Info Video' button is at the top left of the model list.

Model Name	Icon
Info Video	Play button icon
Single Adult Male	Male icon
Single Adult Female	Female icon
Family Parents Children & Dependents	Family icon (two adults and two children)
Couple – Male Female	Couple icon (male and female)

Pick the model that most represents your life and the people whose lives you have to help manage

# Step 1 – Fill in the Model Details

# Model List Area

The screenshot shows the Salmon Technologies web application interface. At the top, there is a navigation bar with the Salmon Technologies logo on the left, a home icon (highlighted with a red box), a document icon, and a settings icon. On the right, a user profile for 'paul' is shown with a 'Logout' link. Below the navigation bar, there is a 'PDM' tab and a blue bar with the text 'IMPORT A MODEL'. Under this bar is a file upload section with a text input field, a 'Select file' button, and a 'Submit' button. The main section is titled 'MY PDM MODELS' and contains a table of models. The table has columns: 'Active Model', 'Type', 'Model Type', 'Drive', 'File Name', 'Deployed Date', 'Details', and 'Deployed'. A single model is listed: 'Household Parent(s) and Children(s) (Family)' from 'Dropbox' with file name 'Paul409.xml' and status 'Not Yet Deployed'. In the 'Active Model' column, there is a toggle switch set to 'ON' and a family icon (highlighted with a red box and an arrow). In the 'Details' column, there is a blue button labeled 'Active Model' (highlighted with a red box and an arrow). A 'Deploy Active Model' button is located at the top right of the table.

Active Model	Type	Model Type	Drive	File Name	Deployed Date	Details	Deployed
